# INTERNATIONAL TRADE EXHIBITION FOR EDUCATION IN HUNGARY

10 Jan 2019 - 12 Jan 2019

## Information

International Trade Exhibition for Education in Budapest, Hungary, continues to grow as the leading event to promote international studies to an ardent audience of students in Hungary. The exhibition invites students from high schools, their parents, educators, educational institution directors and decision-makers to visit the event.

### Reasons to Attend

The EDUCATIO International Trade Fair for Education, which has been organized each year since 2000, is the most important and most significant annual meeting of the profession of Hungarian education. Around 200 exhibition pavilions, nearly 30,000 visitors, representation from nearly all Hungarian higher education institutions, and the latest educational developments, school equipment, methods!

Hundreds of exhibitors – among them all of the Hungarian universities and colleges – represent the national secondary and higher education, the production of school equipment, the publishing of textbooks, the professional training, the language teaching and the quality assurance. The exhibition stands, the professional lectures and the presentations provide the opportunity for visitors to get more information about the present situation and the prospects of the education.

### Market Overview

The total number of students in the higher education system was over 380,000 during the 2015/2016 academic year. Hungary has 70 operating higher education institutions. Hungarian institutions of higher education have started the transformation toward the regulations of the Bologna system. In the new system, both colleges and universities may launch bachelor, master and PhD programs provided that the necessary requirements are fulfilled. This also means that all awarded degrees are equivalent and transferrable throughout the EU and many other countries.

### Fair Outline

It is one of the most momentous annual meetings for Hungarian educators across the country and increasingly from overseas. Besides the national and foreign higher education institutions, companies and other organisations related to education will also participate in Budapest, Hungary at the Trade Fair.

Thanks to the written material offered at the exhibiting stands, the presentations and the professional lectures, visitors at the education fair in Hungary, will have the opportunity to familiarise themselves with the specific features of each institution. During the three days of the Trade Fair, more than 25,000 visitors are expected to come and gather information about the content of training courses, academic programmes and admission requirements.

Following the practice of the past years, the exhibition will be dedicated not only to the opportunities of the continuation of studies in Hungary, abroad and the changes in the national higher education system, but also to the companies that are - in one way or another - related to education.

The importance of the education fair in Hungary for the students, the parents and the educational decision-makers is given by the fact that it makes them possible to get all the necessary information at the same time, in the same place: the students taking an entrance examination in the near future can inquire about the chances and the opportunities to take the entrance exam, while the decision-makers can inquire about the available tenders and the school equipment supply.

The Ministry of Education and Culture, in collaboration with the Educatio Kht., will organise the next International Trade Fair for Education.

# STUDENT FAIRS IN SWEDEN (MALMO) - FALL

## Information

The Student Fairs in Sweden will take place in December 2018 in Malmö and Stockholm. In 2017, over 27,000 people visited the student fairs.

## Reasons to Attend

The Student Fairs in Sweden 2017 were visited by nearly 5,000 attendees in Malmö and over 22,400 in Stockholm. The education fairs are Sweden's largest vocational and education fairs for students looking to choose an education after high school.

Over 27,000 students in their final year of high school come to seek inspiration and answers to support their choice of further education. That is one third of the total population of final year students of high school in Sweden. 80% of the fair visitors come in groups organised by the schools' study guidance counsellors.

## Market Overview

The UK and the US are popular destinations for many Swedish students, followed by Denmark, Australia, Spain, France and Poland. Asia is appealing to more and more students. Roughly 2,300 students studied in Asia in the 09/10 academic year – twice as many recorded for the previous five academic years.

Swedes have excellent knowledge of foreign languages. Another reason for the large number of Swedes choosing to study abroad is their knowledge of foreign languages. Many want to study at university level there is also interest for shorter vocational courses and for work experience.

Sweden has three universities in top 100 and eleven in top 500 of the 2010 edition of the Academic Ranking of World Universities compiled by Shanghai Jiao Tong University.

## Fair Outline

The Student Fairs in Sweden is the largest meeting place for professional and educational choices after high school. Fairs in Stockholm attended by high school pupils (mainly grade 3) from all over central Sweden and fair in Malmö primarily by students from Skåne.

A lot of effort goes into preparation tasks and tools for visitors at the fairs, as we know from experience how important this is for the output. Apart from the study abroad exhibitors there are Swedish universities and other types of higher educations, future employers and various study related organisations. The fair organiser participates with its professional associations offering advice and information concerning most academic professions and their employment market.

The fair's study abroad section averages has around 50 exhibitors of which a large part consists of agents. We

welcome more representatives from universities, colleges and language schools as visitors prefer to meet “real” representatives from the countries and schools they are looking at.

The Student Fairs in Sweden have a study guidance stand with a large number of study guidance counsellors providing counselling. We recommend that you pay them a visit during your participation.

We also have an extensive work shop programme for the visitors with hundred 20 minute workshops about various topics, such as studying abroad, labour market for academics, various types of educations and ways of planning your choice of career and education.

Swedish students have the right to apply for financial aid for studies in another country. A condition is that the overseas education has been recognised by Högskoleverket (Swedish National Agency for Higher Education). They are present at the exhibition and will assist in questions concerning recognition of overseas educations.

Exhibitors include universities and colleges, polytechnic education, employers and organisations, and representatives of international studies.
