

# The Job, Training and Education Fair Austria

02 Mar 2023 - 05 Mar 2023

## Information

The Job, Training and Education Fair lasts four days and has about 350 exhibitors including the exhibitors from abroad. The organizers of Austria's largest education fair are the Federal Ministry of Education, Science and Research and the Public Employment Service Austria.

It first took place in 1986 as a study and career information fair in Vienna's city hall. Thereafter, the former Vienna Messepalast served as a venue for some time. In 1996, the fair then moved to the Wiener Stadthalle.

The education fair also changed with the education landscape. In recent years, for example, the higher education system throughout Europe has been converted to the Bologna structure. In Austria, the Universities of Applied Sciences established themselves alongside universities. And the number of study programmes and locations has increased. The choice of study and training opportunities is very diverse and there is a need for expert advice and support. The exhibition strives to match the latest trends in the educational and professional world in order to appeal and support visitors with its comprehensive information offer.

The exhibitors include universities, colleges, academies, private education providers, language schools, interest groups, and companies that provide information on jobs and in-company training programmes.

The exhibition is aimed at high school graduates, students and young professionals as well as parents, teachers, university graduates, professionals and people interested in further education.

## Visitor numbers :

---

### Vienna 75,000

Primary School	10%	Undergraduate	10%	Professional Training	10%
