# International Student Recruitment Fair in Slovenia

### Information

16,000 visitors attend the Slovenian Education and Career Fair. The education fair takes place in Slovenia in

January, exactly two weeks before the national open-door day at schools, faculties, and universities across Slovenia.

### **Reasons to Attend**

The exhibition brings together Slovenian and foreign institutions (high schools, vocational colleges, faculties and universities, language courses, lifetime learning programmes etc.) with scholarship givers and first employment officers. This way it creates a perfect opportunity for young people to find all information linked with their decisions on further education and vocational training in a single place.

### **Market Overview**

Slovenia offers many opportunities to those looking for education at higher level. Higher education institutions are universities, faculties, art academies and professional colleges. Slovenian students also decide to gain students exchange experiences. Each year there are more Slovenian students who decide to study abroad to locations including Austria, Germany, Italy, the United Kingdom, the USA etc.

The Slovenian school system has seen a number of changes in recent years, aiming to ensure that as many people as possible realise their right to education, better than before, thus achieving a higher educational level.

### **Fair Outline**

Differently from Slovenian open-door day, when university and secondary school students can visit a maximum of three educational programmes in a year, the Slovenian Education and Career Fair allows students to get to know practically all programmes in one or two days.

As the exhibition takes place before the national open-door day, young visitors have enough time to decide what programmes and relative three schools they should visit few weeks later and hopefully have an easier decision when turning in their school enrollment application in March.

The exhibition's second mission is also to prepare a unique one-day event in Slovenia, bringing into one single place companies, educational institutions and other organisations active in the field of business and professional education, training, counselling and publishing.

Slovenian Education and Career Fair is organised in collaboration with organisations such as High School Student Organization of Slovenia, Student Organization of Slovenia, Institute of the Republic of Slovenia for Vocational Education and Training, Slovene Human Resources Development and Scholarship Fund and many others.

Students come to get information and guidance from professionals representing leading programmes and the institutions that provide them.

## Reasons to Attend

The Tourism, Hotel Business and Catering Fair is a specialist fair targeting subjects specific for attracting students who are really interested in studying tourism, hotel business and catering. ## Market Overview

According to the French government, about 100,000 French students go to abroad for their studies; among them 25,945 are Erasmus exchange students.

Each year, more 47,000 French students take degrees in non-native European Union countries. France has a population of 62.9 million with a per capita GDP of US \$31,096 and is the third-largest economy in Europe after Germany and the UK. French higher education has a long tradition of openness and accessibility\*. The national government devotes 20 percent of its annual budget to education. Fees for both French and international students are kept very low to persuade students to stay in education as long as possible. There are about 190,000 international students, from all over the world, currently enrolled in French higher education.

## Fair Outline

5,400 visitors came to the Tourism, Hotel Business and Catering Fair in 2017, of which 37% were high-school students, 19% were A-level (French “Bac”) holders or had validated a first year of higher education, 20% had a Bac+2 level, 20% had a bachelor’s level, and 8% were in other types of studies. 17% of the visitors came from

Paris, 75 % from Ile de France and suburbs area and 8% from other parts of France.

In addition, for students, information and free consultation is available on jobs, internships and housing opportunities.

All courses and programmes in the subjects of tourism, hotel business and catering are provided at this fair: short-term courses, 2-year diplomas, HNC, hotel-business schools and other specialised schools present their opportunities. This fair aims to help students discover the numerous jobs available in connection with these specialist sectors and the courses that lead to them.

The Tourism, Hotel Business and Catering Official Guide is distributed for free to the visitors at the entrance of the fair and a bookshop is on site, selling books of guidance in connection with the subject of the fair.

France is attractive for student recruitment because of the high number of students prepared to study abroad. French students want to improve their language skills and other skills and finally optimize their integration in the professional world thanks to foreign study programmes. French students and employees of companies consider studying abroad provides a big advantage for a successful professional career. When students want to pursue a professional career abroad, studies in a foreign country is the best way to integrate into that country at first.
