# INTERNATIONAL EDUCATION FAIR IN MAURITIUS

22 Nov 2019 - 23 Nov 2019

## Information

The Mauritius education event will be held at the end of November just after the completion of the HSc examinations. This provides an opportunity to prospective students to gather information about study areas and take early informed decisions.

The Mauritius International Education Fair is amongst the largest education fairs in Mauritius. It is also one of the oldest education fairs in the country and has been attracting a number of Universities from across the world. The fair is strategically held as soon as the HSC examinations have concluded and students are looking out for options around the world. Our last event had participants from countries around the world including the UK, France, Switzerland, Canada, Malaysia, India, China, Hungary and Cyprus.

### Reasons to Attend

The fair is marketed extensively and the number of participants has steadily increased every year. Last year, we have over 53 institutions that took part in the fair. The fair has been held annually since 2003. Mauritius is a country where a significant number of students go abroad to study each year. The fair provides an ideal platform for recruiters to meet and interact with interested students

### Market Overview

Despite being one of Africa's most developed countries, Mauritius still has only a few institutions where students can pursue higher education. As a result, most Mauritian students look as pursuing their educational dreams abroad. There are about 5000 Mauritian students who go abroad to study each year.

Mauritius is an island nation of 1.2 millions inhabitants in the Indian Ocean. Mauritius has a multicultural society in which the cultures blend and mix harmoniously. The population is made up of people of Indian, African, Chinese and French origin.

### Fair Outline

This International Education Fair in Mauritius is held at the Hennessy Park Hotel in the city of Ebene. Due to its excellent location and easy accessibility the hotel is able to attract many visitors for the fair.

The Mauritius exhibition is committed to forming value-centred future leaders through education that is entrepreneurial in spirit, ethical in focus, and global in orientation.

The fair is well advertised in the local media including press, radio and television. In addition posters and banners are put up all over the island. Personal visits are made by representatives to various schools and higher education establishments to promote the Fair.

The last fair was inaugurated by the Minister of Tertiary Education and the earlier one by the President of the Republic.

Higher education has recorded strong growth in East Africa in recent years due to increased demand. The use of websites, subscribing to academic journals, use of intranet, social media and other e-learning tools have revolutionised the academic sector in East Africa.

### Market Overview

Altogether, there are about 100 universities in East Africa, both public and private, with Kenya hosting the highest number, 40.

With local Kenyan universities not being able to offer enough places for students, more students are looking into opportunities to study overseas as they also wish to improve their career prospects in the labour market after graduation.

According to University World News, 57% of 1,044 Kenyan students polled in the recent survey said that they would prefer to study in a foreign university than a local one. The number of Kenyans issued with student visas has been on the rise in recent years according to government statistics.

An increase in Kenyan schools offering A-Levels and International Baccalaureate naturally increased the number of students willing to study abroad. Those ones who obtained the Kenya Certificate of Secondary Education (KCSE)

can still apply to foreign universities but most of such students choose to go for Access Courses abroad.

In the past decade Tanzania's public universities have witnessed rapid growth in enrolment. There are nearly 30 public and private universities in Tanzania. Demand for higher education is large with an estimated student population of 15,000.

According to a recent report from the Tanzania Education Sector Analysis, emphasis has been put on higher education, to adequately meet the growing demand from secondary school leavers and produce skills relevant to current and future economic growth. University enrolment has grown at an average annual rate of 30% over 2005-09.

## Fair Outline

Main areas are undergraduate courses and postgraduate courses with a visible increase in interest for professional qualifications. Many foreign universities attract Kenyan students for access and foundation courses in marketing, business, management and IT.

The main subject areas are: business and finance, medicine and related sciences, IT, engineering, hotel management, humanities, law, science, MBA, and distant learning.

**This year, ISFA are also donating to the [Mara Meru Cheetah](#) project, if you would like to donate 5 Euros from your booking towards the charity, please mention this in the comments section of your invoice.**
