

ALL-KAZAKHSTAN INTERNATIONAL EDUCATION FAIR

26 Jan 2020 - 01 Feb 2020

Information

58 institutions from 16 countries participated in the AKIEF last year and more than 3800 visitors attended our fairs in four cities of Kazakhstan. Speedy economic and social development of Kazakhstan has resulted in an acute need for personnel with advanced western education. This is an important contributing factor to the popularization of overseas education, particularly in the English-speaking countries.

Market information

Kazakhstan has taken part in Lisbon conference and signed a Convention of Council of Europe - UNESCO on recognition of qualifications, regarding the higher education. The fair will be an ideal opportunity and a strong bridge for Kazakh students, parents, school representatives and media partners to meet and benefit at the same time. An average annual GDP growth of over 5% over last five or six years significantly raised creditworthiness and financial capacity of the population allowing parents to educate their children in commercial universities and colleges. As prices for higher education in Kazakhstan rapidly approach Western levels many parents begin to look overseas at educational destinations for their children.

Education in Kazakhstan is universal and mandatory through the secondary level and the adult literacy rate is 99.5 percent. The Ministry of Education's Bolashak scholarship grants some 3,000 young students a year the opportunity to travel to 32 countries to attend 630 universities.

Fair Outline

There has been a growing interest in Kazakhstan for postgraduate, business, and economic programmes. Almaty traditionally is a good market for economics and business management programmes, whilst Astana attracts a different audience of students who have an interest in Law and Political programmes. Rapid economic and social development of Kazakhstan has resulted in an acute need for personnel with advanced western education. This is an important contributing factor to the popularisation of overseas education, particularly in the English-speaking countries.

This Educational Fair will provide an excellent opportunity for all participants to tap into Kazakhstan's student market and gain access to a large number of potential applicants.

INTERNATIONAL TRADE EXHIBITION FOR EDUCATION IN HUNGARY

09 Jan 2020 - 11 Jan 2020

Information

International Trade Exhibition for Education in Budapest, Hungary, continues to grow as the leading event to promote international studies to an ardent audience of students in Hungary. The exhibition invites students from high schools, their parents, educators, educational institution directors and decision-makers to visit the event.

Reasons to Attend

The EDUCATIO International Trade Fair for Education, which has been organized each year since 2000, is the most important and most significant annual meeting of the profession of Hungarian education. Around 200 exhibition pavilions, nearly 30,000 visitors, representation from nearly all Hungarian higher education institutions, and the latest educational developments, school equipment, methods!

Hundreds of exhibitors – among them all of the Hungarian universities and colleges – represent the national secondary and higher education, the production of school equipment, the publishing of textbooks, the professional training, the language teaching and the quality assurance. The exhibition stands, the professional lectures and the presentations provide the opportunity for visitors to get more information about the present situation and the prospects of the education.

Market Overview

The total number of students in the higher education system was over 380,000 during the 2015/2016 academic year. Hungary has 70 operating higher education institutions. Hungarian institutions of higher education have started the transformation toward the regulations of the Bologna system. In the new system, both colleges and universities may launch bachelor, master and PhD programs provided that the necessary requirements are fulfilled. This also means that all awarded degrees are equivalent and transferrable throughout the EU and many other countries.

Fair Outline

It is one of the most momentous annual meetings for Hungarian educators across the country and increasingly from overseas. Besides the national and foreign higher education institutions, companies and other organisations related to education will also participate in Budapest, Hungary at the Trade Fair.

Thanks to the written material offered at the exhibiting stands, the presentations and the professional lectures, visitors at the education fair in Hungary, will have the opportunity to familiarise themselves with the specific features of each institution. During the three days of the Trade Fair, more than 25,000 visitors are expected to come and gather information about the content of training courses, academic programmes and admission requirements.

Following the practice of the past years, the exhibition will be dedicated not only to the opportunities of the continuation of studies in Hungary, abroad and the changes in the national higher education system, but also to the companies that are - in one way or another - related to education.

The importance of the education fair in Hungary for the students, the parents and the educational decision-makers is given by the fact that it makes them possible to get all the necessary information at the same time, in the same place: the students taking an entrance examination in the near future can inquire about the chances and the opportunities to take the entrance exam, while the decision-makers can inquire about the available tenders and the school equipment supply.

The Ministry of Education and Culture, in collaboration with the Educatio Kht., will organise the next International Trade Fair for Education.

MALAYSIA- EDUCATION FAIR - WINTER 2019

07 Dec 2019 - 22 Dec 2019

Information

The Education Fair Peninsular Malaysia will take place throughout Malaysia.

Reasons to Attend

As one of the largest education fairs in this region, the education fair in Malaysia is perfectly timed, when over 500,000 students are expected to finish their SPM, STPM, O & A levels examinations.

Market Overview

Over 79,000 students from Malaysia choose to study abroad each year. Malaysia is both modern and traditional, and the country proudly boasts five universities appearing in the QS World University Rankings.

Efforts have been made to encourage private sector's involvement in providing industry-relevant education so that Malaysia can become the world's 6th biggest education exporting country by 2020 with a target of 200,000 international students.

Fair Outline

Supported by the Ministry of Education & Ministry of Higher Education, the Malaysia Education Fair is superbly timed because it will be held around the end of the SPM and STPM examinations and the release of UEC results. During this period, students and parents will be eagerly collecting vital information on programs and institutions of higher learning to pursue their further education. For many students, a visit to the education exhibition marks a new phase in their life. This is where they made their decisions not only on the choice of their program, but also the education institutions to help them build their future. For others, the fair is a place for them to gather information to help them make an informed choice for their educational needs.

Take the opportunity to present and promote directly to your future students your latest educational programs and benefits and advantages that you offer for them.

The Fair is officially supported by the Ministries of Education and Higher Education in recognition for its success and contributions to the education sector.

SOUTH AFRICA, KENYA, UGANDA - ISFA INTERNATIONAL STUDENT FAIRS AFRICA - SPRING

26 Feb 2020 - 03 Mar 2020

Information

Come and participate at the 11th edition of the ISFA International Student Fairs Africa - Fall 2019.

Reasons to Attend

The exhibition will bring together students and international education providers with the focus on recruiting students for foundation, undergraduate and postgraduate levels.

Higher education has recorded strong growth in East Africa in recent years due to increased demand. The use of websites, subscribing to academic journals, use of intranet, social media and other e-learning tools have revolutionised the academic sector in East Africa.

Market Overview

Altogether, there are about 100 universities in East Africa, both public and private, with Kenya hosting the highest number, 40.

With local Kenyan universities not being able to offer enough places for students, more students are looking into opportunities to study overseas as they also wish to improve their career prospects in the labour market after graduation.

According to University World News, 57% of 1,044 Kenyan students polled in the recent survey said that they would prefer to study in a foreign university than a local one. The number of Kenyans issued with student visas has been on the rise in recent years according to government statistics.

An increase in Kenyan schools offering A-Levels and International Baccalaureate naturally increased the number of students willing to study abroad. Those ones who obtained the Kenya Certificate of Secondary Education (KCSE) can still apply to foreign universities but most of such students choose to go for Access Courses abroad.

In the past decade Tanzania's public universities have witnessed rapid growth in enrolment. There are nearly 30 public and private universities in Tanzania. Demand for higher education is large with an estimated student population of 15,000.

According to a recent report from the Tanzania Education Sector Analysis, emphasis has been put on higher education, to adequately meet the growing demand from secondary school leavers and produce skills relevant to

current and future economic growth. University enrolment has grown at an average annual rate of 30% over 2005-09.

Fair Outline

Main areas are undergraduate courses and postgraduate courses with a visible increase in interest for professional qualifications. Many foreign universities attract Kenyan students for access and foundation courses in marketing, business, management and IT.

The main subject areas are: business and finance, medicine and related sciences, IT, engineering, hotel management, humanities, law, science, MBA, and distant learning.

This year, ISFA are also donating to the [Mara Meru Cheetah](#) project, if you would like to donate 5 Euros from your booking towards the charity, please mention this in the comments section of your invoice.

SPAIN - INTERNATIONAL EDUCATION SALON

18 Mar 2020 - 22 Mar 2020

Information

The Salon presents a complete and updated offer of high school studies, university, other higher education, complementary, vocational training and languages, as well as services to education. It is the key annual event for students looking for careers guidance and an ideal environment for presenting your latest services and your educational programmes.

The Exhibition will be organised for the 23rd time in 2020 and in the last edition hosted 175 local and international exhibitors.

The Salon offers various training options for students after completing Compulsory Secondary Education: high school studies, university careers, higher education, complementary studies, professional training and languages.

The exhibition has the following sections:

University studies

Vocational Training Studies

Other higher education

Complementary studies

Language studies

Primary, secondary and BA education centers

Professional training

Education services
