Reasons to Attend

- Excellent proven recruitment conversion rate at the fair and after
- Good ratio of return clients
- Carefully planned and executed promotion
- Exciting socializing activities and cultural tours
- Meeting new friends and long-term partners

The exhibition will bring together students and international education providers with the focus on recruiting students for foundation, undergraduate and postgraduate levels.

Higher education has recorded strong growth in East Africa in recent years due to increased demand. The use of websites, subscribing to academic journals, use of intranet, social media and other e-learning tools have revolutionised the academic sector in East Africa.

Market Overview

Altogether, there are about 100 universities in East Africa, both public and private, with Kenya hosting the highest number, 40.

With local Kenyan universities not being able to offer enough places for students, more students are looking into opportunities to study overseas as they also wish to improve their career prospects in the labour market after graduation.

According to University World News, 57% of 1,044 Kenyan students polled in the recent survey said that they would prefer to study in a foreign university than a local one. The number of Kenyans issued with student visas has been on the rise in recent years according to government statistics.

An increase in Kenyan schools offering A-Levels and International Baccalaureate naturally increased the number of students willing to study abroad. Those ones who obtained the Kenya Certificate of Secondary Education (KCSE) can still apply to foreign universities but most of such students choose to go for Access Courses abroad.

In the past decade Tanzania's public universities have witnessed rapid growth in enrolment. There are nearly 30 public and private universities in Tanzania. Demand for higher education is large with an estimated student population of 15,000.

According to a recent report from the Tanzania Education Sector Analysis, emphasis has been put on higher education, to adequately meet the growing demand from secondary school leavers and produce skills relevant to current and future economic growth. University enrolment has grown at an average annual rate of 30% over 2005-09.

Fair Outline

Main areas are undergraduate courses and postgraduate courses with a visible increase in interest for professional qualifications. Many foreign universities attract Kenyan students for access and foundation courses in marketing, business, management and IT.

The main subject areas are: business and finance, medicine and related sciences, IT, engineering, hotel management, humanities, law, science, MBA, and distant learning.

This year, ISFA are also donating to the [Mara Meru Cheetah](#) project, if you would like to donate 5 Euros from your booking towards the charity, please mention this in the comments section of your invoice.

Studyrama International Education & Career Fair - Paris - Fall

08 Oct 2022

Information

The Studyrama International Education Fair Paris aims to help students find an international education and/or career path abroad. The International Education and Career Fair also aims to represent a substantial number of industry sectors for prospective employees to investigate different career paths. The objective of the event is to develop a dynamic continuum of the various opportunities available in the sectors for students and young professionals with all levels of experience.

Reasons to Attend

This not to be missed event addresses French students at the undergraduate or graduate level as well as students from abroad who wish to find information on an international curriculum. It is also directed towards young graduates and the currently employed who would like to give their career a more international dimension.

Market Overview

Each year, more than 47,000 French students take degrees in non-native European Union countries. France has a population of 62.9 million with a per capita GDP of US \$31,096 and is the third-largest economy in Europe after Germany and the UK. French higher education has a long tradition of openness and accessibility*. The national government devotes 20 percent of its annual budget to education. Fees for both French and international students are kept very low to persuade students to stay in education as long as possible. There are about 190,000 international students, from all over the world, currently enrolled in French higher education.

Fair Outline

Among the present institutions: Prestigious schools and French universities, European establishments (German, Swiss, Spanish, English, Belgian), North American establishments (American and Canadian universities), Australian establishments, and a Language Pavillon offering linguistic travel with language courses abroad.

The international mobility/living abroad area

-A number of French and European institutions will be available for consultation and international recruitment firms.

-International mobility agencies will be present to give advice and information to visitors looking to move abroad.

Visitors are attracted to the wide range of exhibitors and services provided by the fair including a bookshop with specialised works on living and studying abroad. Conferences and lectures will be held throughout the day to offer a broad spectrum of employment options from various industry sectors and the new tendencies in recruitment. Visitors will also receive copies of “The Official Studyrama Guide to International Education”, which will be given out at the international guide desk at the front of the fair.

This fair is the pre-eminent way for skill and opportunity to join together in a functional environment. This is a great opportunity to promote your services and to enrol students and graduates.
