Days of International Education Hungary - Fall

26 Oct 2024

Information

Many education providers have already understood the great possibilities of the Hungarian market for successful student recruitment. This is the market where a certain “gap” has been formed in the area of study abroad offers.

The main aims of the fair are to increase the awareness of study abroad opportunities, promotion of the fair’s participants and their programmes & services, and recruit new students. Participants of the fair will represent a variety of study abroad opportunities.

Market Overview

The total number of students in the higher education system was over 380,000 during the 2020/2021 academic year. Hungary has 70 operating higher education institutions. Hungarian institutions of higher education have started the transformation toward the regulations of the Bologna system. In the new system, both colleges and universities may launch bachelor, master, and Ph.D. programs provided that the necessary requirements are fulfilled. This also means that all awarded degrees are equivalent and transferrable throughout the EU and many other countries.

Fair Outline

The importance of the education fair in Hungary for the students, the parents, and the educational decision-makers is given by the fact that it makes them possible to get all the necessary information at the same time, the same place: the students taking an entrance examination in the near future can inquire about the chances and the opportunities to take the entrance exam, while the decision-makers can inquire about the available tenders and the school equipment supply.

Study Abroad Scholarship Expo in Macedonia - Fall 2024

26 Oct 2024

Information

The STUDY ABROAD EXPO is a unique event of national importance in Macedonia, where a variety of study programs, scholarships and other forms of financial aid available to Macedonian citizens for studying abroad are presented at a single location. The first exhibition was launched for the first time in 2010. The event is annual, recognisable, high-profile Macedonian educational brand and a highly valued initiative promoting investment in knowledge and human potential.

The main goal of the EXPO is the promotion of study abroad and the importance of scholarships as growing access to higher education. It helps prospective students and academic society on all levels to find programs and financial sources for education abroad (scholarships and financial aid for studying abroad, research stay and academic work).

EXPO also promotes the importance of finding the right study program and bringing learning results in line with the needs of the labor market.

Participants at the EXPO are international institutions whose representatives provide all necessary information on their study and scholarship programs and direct contact with visitors. Participating institutions are universities, embassies and cultural centers of foreign countries in Macedonia.

This event has huge media coverage so the promotion is done at the highest level for sponsors and for the participants.
