More and more students from the Baltic States tend to look for opportunities to gain high quality international education, professional training and experience. Foreign language courses are becoming increasingly popular among people of different ages and occupations. The Baltic region has a long tradition of providing high-quality education. For young people, it is a vibrant and international environment with the possibility to make use of the latest developments in different study fields, which makes the region an attractive place for living and studying. The fairs are free to access by the public, allowing visitors to get acquainted with the student fair's participants; their courses and programmes and to take enrolments. On the other hand, education providers have the opportunity to meet and support their education agents, the Baltic Council and to establish new contacts.

The success of this fair is based on the qualitative service and professionalism of the organizers combined with a broad promotion campaign providing return of investments for the fair's participants.

During the last several years the Baltic States (Latvia, Estonia and Lithuania) have become more attractive for education providers from all over the world. This is not a casual interest, but a developing tendency proving that the potential and demand for the educational industry abroad in the Baltic region is very high.

The Baltic international recruitment tour has been in place since 2005 with a growing number of participants and a strong presence of institutions presenting their programmes and services. # Days of International Education Hungary - Spring 2026

21 Mar 2026

## Information

Many education providers have already understood the great possibilities of the Hungarian market for successful student recruitment. This is the market where a certain “gap” has been formed in the area of study abroad offers.

The main aims of the fair are to increase the awareness of study abroad opportunities, promotion of the fair’s participants and their programmes & services, and recruit new students. Participants of the fair will represent a variety of study abroad opportunities.

## Market Overview

The total number of students in the higher education system was over 380,000 during the 2020/2021 academic year. Hungary has 70 operating higher education institutions. Hungarian institutions of higher education have started the transformation toward the regulations of the Bologna system. In the new system, both colleges and universities may launch bachelor, master, and Ph.D. programs provided that the necessary requirements are fulfilled. This also means that all awarded degrees are equivalent and transferrable throughout the EU and many other countries.

## Fair Outline

The importance of the education fair in Hungary for the students, the parents, and the educational decision-makers is given by the fact that it makes them possible to get all the necessary information at the same time, the same place: the students taking an entrance examination in the near future can inquire about the chances and the opportunities to take the entrance exam, while the decision-makers can inquire about the available tenders and the school equipment supply.
